

Uganda Post-Placement Reporting Guide

Please include the following information in your report, in English. The last page of the report should include approximately 5-7 recent photographs of the child, with captions. At least one photo should be of the child and his or her complete family. Ensure that the child's face is visible in all photos. **A copy of the child's adoption decree (granted internationally) must be included if adoption was finalized since the last post-placement report.**

Case #:

High Court location:

Hon. Justice:

Date of ruling:

Post-placement frequency specified in ruling:

Child's Information:

Child's biological name and current age:

Child's current legal name (if different):

Child's original date of birth:

Child's current legal date of birth (if different):

Date of adoption finalization:

Family Information:

Name(s) of adoptive parents:

Home address:

Has any of the above information changed since last report? Y / N

Items for Reporting:

1. The child's current overall development.
 2. How the child relates to others (parents, other adults, other children).
 3. Current health condition(s) and any treatment. Include height and weight.
 4. Information on eating, learning, sleeping, language, socialization.
 5. Difficulties encountered and how they have been handled.
 6. Ways the family incorporates Ugandan culture into the child's/family life.
 7. Other changes in the child's life since the last report, if not already stated above
- **Responses to these items should include any/all appropriate updates since last report filed, or since placement – Whichever occurred most recently.*

This guide produced by A Child's Voice is provided for adoptive families as a resource.
